

HOW WE PROTECT SCR SYSTEMS

Cleaning the SCR system will help to maintain vital components and restore performance.

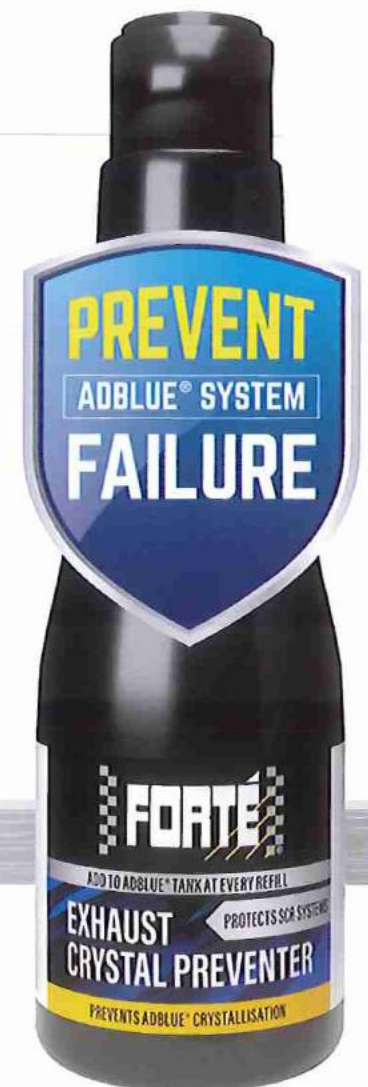

The blue line shows how Forté treatments travel through the SCR system to prevent crystal formation.

- | | | | |
|----------------|-----------------------------------|-----------------------|----------------|
| 1 ADBLUE TANK | 2 DEF (ADBLUE) INJECTOR | 3 SCR CATALYST | 4 NOX SENSOR 2 |
| 5 NOX SENSOR 1 | 6 DIESEL OXIDATION CATALYST (DOC) | 7 DPF PRESSURE SENSOR | 8 DPF |

USE ON EVERY SERVICE

- ✓ Keeps the complete SCR system free from crystals
- ✓ Prevents crystals forming on the following components and ensures they function correctly:
- ✓ Fluid Tank
- ✓ Level Sensor
- ✓ Fluid Pump
- ✓ AdBlue Injector
- ✓ Exhaust SCR Mixer
- ✓ SCR Catalyst
- ✓ NOx Trap
